

DATASTREAM NAVIGATOR 4.4

QUICK REFERENCE CARD

FREE TEXT SEARCH

Narrow down your search by filtering on one data category if this has not been set.

The screenshot shows the search results for 'Coca Cola' with a 'Refine Search' sidebar on the left. The sidebar includes categories like 'Equities', 'Bonds & Convertibles', 'Credit Default Swaps', 'Warrants', 'Futures', 'Equities', and 'Counterpart Lists'. The main results table lists various Coca-Cola entities with columns for Symbol, Market, Exchange, and Currency. A 'Display Results' button is visible at the bottom of the results table.

Narrow down your search by filtering on the exchange, market or currency.

Series the search engine has ranked highest

This screenshot shows the search results for 'Coca Cola' with a detailed preview pane for the top result, 'COCA-COLA'. The preview pane includes a price chart (Price (Adjusted-Default) from 1980 to 2010), company information (ISIN: US028120, Ticker: KO), and a 'Notes' section. The notes describe the company's history and its focus on non-alcoholic beverages. A 'Changes on Datastream' banner is visible at the bottom left of the preview pane.

Preview pane with chart and metadata for the series.

Display related securities - bonds, warrants, cds, etc.

If less than 400 series in the results - all the results can be displayed.

CRITERIA SEARCH PAGE

Click for help on where to find different types of data series.

Select data category.

Click **Search Now** press <Enter> to display results.

The screenshot shows the 'Criteria Search' page in Datastream Navigator. It features a 'Data Category' dropdown set to 'Equities'. Below this is an 'Advanced Search' section with various filters like 'Name', 'DS Mnemonic', 'DS Code', 'Market', 'Base Date', 'Currency', 'Primary Quote', 'Major Security', 'Adjusted Prices', and 'Status'. A 'Search Now' button is prominently displayed. Annotations with arrows point to the 'Data Category' dropdown, the 'Search Now' button, and the 'Market' filter.

Check Dead to display series that are no longer active.

Enter search criteria. Click + to enter more criteria.

RESULTS PAGE

Click for more display options.

Set number of series to display per page. You can display up to 100 per page.

The screenshot shows the 'Results for Advanced Search' page. It displays a list of search results with columns for Name, DS Mnemonic, DS Code, Market, Base Date, Currency, and IBES. The results include various entities like '1ST-CO-INVESTORS', '1ST-DIBRAI FOR INST.DEV.', and '1ST-MIDWEST'. Annotations with arrows point to the 'Name' column, the 'DS Mnemonic' column, and the 'Displayed Results' dropdown menu.

Click to display a chart of the series.

Click Explorer to see the position of the series in the Explorer tree.

Select to see related indices and lists.

EXPLORER PAGE

Click the Explore link to open Explorer option or use <shift> + E on the keyboard

RESULTS PAGE

Re-display previously reviewed explorers and searches.

Click to display the Preview.

Re-order by start date, rank, etc.

DATATYPE SEARCH PAGE

Click to display the definition of the datatype.

Select if you want to use similar names such as 'sales' or 'revenue' or for datatypes using two words in descriptions such as 'key' and 'assets' to display the Worldscope asset items available in all Datastream clients.

Definitions are displayed on the same page.
